COMPUTER SCIENCE STUDENT

Final year computer science student experienced in writing code and designing solutions. Adept at working effectively in fast-paced deadline-driven team settings that demand strong organizational and analytical skills.

WORK EXPERIENCE

Summer Intern | Tata Consultancy Services

June 2022 - July 2022

- Worked with the Conversational AI Platform team on processing audio files using Python
- Contributed to the speech diarization project using Pytorch toolkit and related Python libraries

Customer Engineering Intern | Niveus Solutions

Nov 2021 - Dec 2022

- Researched example case studies to explain digital acceleration areas including demand forecasting, customer segmentation, manufacturing analytics, site reliability engineering, and process documentation
- Listed software components and APIs required to build a banking mobile application

PROJECTS

- **Investigating Netflix Movies and Guest Stars in The Office:** Used Python Matplotlib and Seaborn libraries and pandas to predict whether Netflix's movies are getting shorter over time and which guests stars appear in the most popular episode of "The Office".
- **Analyzing Road Safety in the UK:** Using aggregate functions in SQL and Python to evaluate the median severity value of accidents caused by various Motorcycles, Accident Severity and Total Accidents per Vehicle Type.
- **Visualizing Uber Data using R Programming:** Created a dashboard using R's ggplot2 and flex dashboard to visualize the Uber Pickups in New York and also visualizing the pollution levels caused.
- **Web Scraping Job Openings from Indeed using Python:** Scraped some job postings from indeed.com using Python libraries like BeautifulSoup and create a dataset of CSV file(s).

SKILLS

- **Programming:** Python, SQL and R Programming
- **BI Tools:** Tableau and Power BI
- **Language Skills:** Hindi as mother tongue, fluent English and entry-level French

VOLUNTEER EXPERIENCE

Communication & Marketing Head & Volunteer | Becoming I Foundation

Jan 2021 - Jan 2022

- Conducted remote fundraising and informational events in orphanages, cancer centers and disability centers across India with the mission to educate children with disabilities and resource constraints
- Taught less fortunate students from orphanages and cancer centers across India basic English, Science and Mathematics
